Arthur Balfour - Carpool Karaoke

100 years ago, in the midst of the Spanish Flu pandemic, world leaders met in San Remo, Italy, for the postponed completion of the Paris Peace Conference after WW1.

At that pivot of world history, the Allied Powers embedded Britain's 'Balfour Declaration' (1917) within international law. This gave the future State of Israel not only its legal birth certificate, but also a realistic and fair 'pathway for peace' for all communities in the land – the San Remo Solution.

Since the postponed centenary in April, modern Middle East affairs have shifted rapidly, with Israeli intentions to extend sovereignty to parts of the 'West Bank', now overtaken by their remarkable Abraham Accords with Arab neighbours.

Join us online to discover hope for Israel & the Palestinians too.
